I'm an orchestra musician who found in the programming a new passion. Because of this I decided, after taking an introductory course, to do a coding Bootcamp for becoming a Full Stack Developer. Music and programming share the logical-mathematical aspect and teamwork, things that I really like. I chose to do the Coding Bootcamp of Plataforma5, which has more than 800 hours of intensive training focused on Javascript, NodeJs and React, and where I worked with Scrum (agile framework for software development). I'm currently looking for my first job as a developer while study at the Universidad Tecnológica Nacional (UTN) to be a university technologist in programming.

### Projects

- |  |                    |
|--|--------------------|
| <b>"Amazonia": E-commerce</b> , <i>Technologies: Javascript, React, Node.js, Mongo.</i> <a href="#">🔗</a><br>• A project developed individually in the style of the Amazon website.  | 2021 – In progress |
| <b>"Pixabay App"</b> , <i>Technologies: Angular, Javascript, Typescript, HTML, CSS.</i> <a href="#">🔗</a><br>• App to searching for images.  | 2021               |
| <b>"News finder App"</b> , <i>Technologies: Angular, Javascript, Typescript, HTML, CSS.</i> <a href="#">🔗</a><br>• App to searching for news.  | 2021               |
| <b>"Credit Card App"</b> , <i>Technologies: Javascript, Angular, Firebase, HTML, CSS.</i> <a href="#">🔗</a><br>• An app that simulates the entry of data of the cardholder; these are saved in Firestore.  | 2021               |
| <b>"Electrhogar": E-commerce</b> ,<br><i>Technologies: Javascript, React, Redux, PostgreSQL, Node, Express.</i> <a href="#">🔗</a><br>• An integrative project developed individually in the Coding Bootcamp.   | 2020               |
| <b>"Canal Musical": E-commerce</b> ,<br><i>Technologies: Javascript, React, Redux, PostgreSQL, Node, Express.</i> <a href="#">🔗</a><br>• Project created as a team in the Coding Bootcamp. I participated in the development of routes, components and configurations. | 2020               |
| <b>"OMDB": App Movie Database</b> , <i>Technologies: Javascript, React, Hooks.</i> <a href="#">🔗</a><br>• An application that searches and displays information about movies. A project developed individually in the Coding Bootcamp.                                 | 2020               |

### Education

- |   |                    |
|---|--------------------|
| <b>Universidad Tecnológica Nacional - Technician in Programming</b> | 2021 – In progress |
| <b>Plataforma5 - Coding Bootcamp</b>                                | 2020               |
| <b>Universidad Nacional de las Artes - Bachelor of Music</b>        | 2016 – 2021        |

### Technological knowledge

- Advance** (Javascript, React, HTML.) | **Scrum**
- Intermediate** (CSS, JQuery, PostgreSQL, Hooks, Git, GitHub, Node.js, Redux, Express, Sequelize, Passport.)
- Basic** (Angular, MongoDB, Firebase, Webpack, Sass, Docker, Mocha, Chai, Jasmine.)

### Lenguajes

- Spanish** (Native) • **English** (Intermediate) • **Italian** (Intermediate)

### Work experience

- |   |  |
|---|--|
| <b>Musician</b> , <i>Tango Show "La ventana"</i><br>First Bandoneon and Substitute Conductor of the orchestra.<br>Main achievements: Development and improvement of the group dynamics, communication and musical quality of the orchestra. | 2015 – 2020<br>Buenos Aires, Argentina |
| <b>Employee</b> , <i>Mercado Frutihortícola de La Matanza</i><br>Direct service to more than 100 clients per day. Reception of vehicles, collection of fees and organization of shifts.   | 2008 – 2014<br>La Matanza, Argentina   |
